

Health Maintenance Wellness Protocol (Item #7101) A Healthy and Effective Wellness Maintenance Program

Products included in this Wellness Protocol are:

- ① Quint-Essence (6111) – Whole Food Meal Enhancement Supplement
- ① Tracite (2031) – 77 Essential Elemental Fulvic Trace Minerals

Protocol Overview

As important as it is to realize optimal health, it is equally necessary to maintain that level of wellness once it has been achieved. Among the most important determinants of good health is nutrition; our products supplement the diet and provide nutrients that may be missing or may not be consumed in sufficient quantities in a person's diet.

This Wellness Protocol brings together the traditional herbs and minerals of our individual formulations to replenish vitality and increase nutritional value at a cellular level through a simplified, consistent and balanced supplementation program.

Quint-Essence is added to this Wellness Protocol to oxidize the body, and enhance the digestion of nutrients for absorption into the body. This complete, unique blend of ingredients acts as a whole food supplement, providing food enzymes which aid digestion and vitamins and minerals which provide a balanced nutritional foundation.

Tracite is an iron-based, plant-derived, trace mineral composition rich in chromium, vanadium and selenium. It is also rich in macro-minerals, trace minerals, trace elements and especially fulvic acid. In this protocol, Tracite increases the ability of cells to absorb nutrients and achieve optimal health.

Note: Additional information for the above products is included in the subsequent datasheets.

Dosage Recommendations:

Quint-Essence: 1 vegi-capsule for every 60-75 pounds of body weight at meals

Tracite: 5 drops in 2 to 8 ounces of water or sparkling water

(To make it even more palatable, squeeze a wedge of lemon or lime into the water)

**Please DO NOT modify levels of any prescribed medication
without first consulting your physician.**
